Germany Metals and Mining Market Summary and Forecast

Summary

Metals & Mining in Germany industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

The metals & mining market includes aluminum, steel, iron ore, coal, base metals, and precious metals. Market volume includes production volume and market value is calculated by multiplying market volume with production price.

The German metals & mining industry had total revenues of \$60.3 billion in 2022, representing a compound annual growth rate (CAGR) of 6.6% between 2017 and 2022.

The production volumes declined with a negative CAGR of 7.1% between 2017 and 2022, reaching a total of 152,248.4 thousand tonnes in 2022.

The German industry has suffered in recent years due to the imposition of tariffs on a number of EU products, including steel, by US President Donald Trump in 2018. This has contributed to a decline in the production of metals.
