The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The casinos and gaming market consists of all forms of betting and gaming. All values are stated in terms of gross gaming win (GGR). This is the total amount wagered by customers minus the total amount paid out to customers as winnings, but before the payment of any applicable taxes, disbursements to charitable or other causes by games established for those purposes, or other expenses.

The global casinos & gaming sector had total gross gaming win of \$415.5bn in 2021, representing a compound annual rate of change (CARC) of -0.6% between 2017 and 2021.

The casinos segment was the sector's most lucrative in 2021, with total gross gaming win of \$131.3bn, equivalent to 31.6% of the sector's overall value.

Growth in the casinos & gaming sector is highly correlated with regulations

concerning gambling. Geographic areas with relatively loose regulations would experience higher growth than areas with stricter regulation.
