Global Foodservice Industry Profile & Value Chain Analysis

SUMMARY

Global Foodservice industry profile provides top-line qualitative and quantitative summary information including: market size (value 2012-16, and forecast to 2021). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

The value chain analysis reveals the business activities which comprise the global foodservice market value chain. All key stages are highlighted, along with examples of companies active, and assessments of the burning issues for every stage of the value chain. Key value chain stages analyzed include base ingredients, food production, distribution, food outlets and end-user.

SYNOPSIS

Essential resource for top-line data and analysis covering the global foodservice market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

KEY HIGHLIGHTS

The global foodservice industry grew by 3.9% in 2016 to reach a value of \$3,628.6 billion.

Full service restaurant is the largest segment of the global foodservice industry, accounting for 47.4% of the industry's total value.

Global fast-food companies keep as many processing systems in-house, reducing costs through the use of economies of scale and backwards integration.

Foodservice sales are dominated by the large fast-food outlets that are able to produce the same dish in identical fashion in any store around the world. Whilst many independent pubs, clubs, cafés and restaurants thrive, they only exist on a small scale.

SCOPE

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the foodservice market

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the global foodservice market
