Global Hybrid & Electric Cars Industry Profile & Value Chain Analysis

SUMMARY

Global Hybrid & Electric Cars industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2012-16, and forecast to 2021). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

SYNOPSIS

Essential resource for top-line data and analysis covering the global hybrid & electric cars market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

The value/supply chain analysis reveals the business activities which comprise the global hybrid & electric cars market value/supply chain. All key stages are highlighted, along with examples of companies active, and assessments of the burning issues for every stage of the value/supply chain. Key value/supply chain stages analyzed include raw materials, component production, automotive manufacturers, retail and end-users.

KEY HIGHLIGHTS

The hybrid and electric cars market consists of the initial retail sale/registration of new electric and hybrid passenger cars. Passenger cars include saloons, hatchbacks, SUVs, 4x4s and other related vehicles.

The global hybrid & electric cars market had total revenues of \$75,069.0m in 2016, representing a compound annual growth rate (CAGR) of 12.6% between 2012 and 2016.

Market consumption volume increased with a CAGR of 11.7% between 2012 and 2016, to reach a total of 2,580,759.5 units in 2016.

Though the global hybrid and electric cars market has seen strong growth, there was a slowdown in 2014. The driving factor for this was falling oil prices making conventional petrol and diesel cars more appealing in the uncertain economic climate.

In the instance of Tesla there is a strong degree of integration throughout the chain, although this appears to be an exception.

Scale is necessary in this market to survive due to expensive costs and longer lifespan of automotive products

SCOPE

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the hybrid & electric cars market

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the global hybrid & electric cars market

Leading company profiles reveal details of key hybrid & electric cars market players' global operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the global hybrid & electric cars market with five year forecasts by both value and volume

Quickly and easily identify the key stages and sub-stages of the global hybrid & electric cars market value/supply chain

See examples of companies active at each stage of the global hybrid & electric

cars market value/supply chain

Examine trends and burning issues impacting the global hybrid & electric cars market value/supply chain

REASONS TO BUY

What was the size of the global hybrid & electric cars market by value in 2016?

What will be the size of the global hybrid & electric cars market in 2021?

What factors are affecting the strength of competition in the global hybrid & electric cars market?

How has the market performed over the last five years?

What are the main segments that make up the global hybrid & electric cars market?

Who are the top competitors in the global hybrid & electric cars market?

What are the key stages and sub-stages of the global hybrid & electric cars market value/supply chain?
