Global Insurance Industry Profile & Value Chain Analysis

SUMMARY

Global Insurance industry profile provides top-line qualitative and quantitative summary information including: market size (value 2012-16, and forecast to 2021), market segmentation and market share data. The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

The value chain analysis reveals the business activities which comprise the global insurance value /supply chain. All key stages are highlighted, along with examples of companies active, and assessments of the burning issues for every stage of the value chain. Key value/supply chain stages analyzed include reinsurers, insurers, distributors, and policyholders.

SYNOPSIS

Essential resource for top-line data and analysis covering the Global insurance market. Includes market size market share and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

KEY HIGHLIGHTS

The insurance market consists of the non-life insurance sector and the life insurance sector. The value of the market is shown in terms of gross premium

incomes.

The global insurance market grew by 4.3% in 2016 to reach a value of \$4,609.3 billion.

Life insurance is the largest segment of the global insurance market, accounting for 55.6% of the market's total value.

Asia-Pacific accounts for 32.6% of the global insurance market value.

Reinsurers are large financial companies with a risky substitute product, and a tendency to integrate throughout the value chain.

Insurers are tightly regulated and generally tend to have regional or local monopolies, particularly in Asia where there are foreign ownership requirements.
