Global Nuclear Energy Market to 2027

Summary

Global Nuclear Energy industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

The nuclear energy market includes the generation of electricity through the use of nuclear reactions.

The global nuclear energy market had total revenues of \$111.2 billion in 2022, representing a compound annual growth rate (CAGR) of 0.6% between 2017 and 2022.

Market production volumes declined with a negative CAGR of 0.1% between 2017 and 2022, reaching a total of 2,162.3 TWh in 2022.

The growth in the global nuclear energy market is influenced by several macroeconomic factors, such as rising GDP and increasing demand for energy. However, in 2022, the market contracted due to an increase in energy price inflation as well as the increasing availability and affordability of natural and renewable energy. For instance, according to GlobalData, energy price inflation in the UK reached 21.3% in 2022, up from 9.1% in the last year.

Scope

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the nuclear energy market in the global

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the global nuclear energy market

Leading company profiles reveal details of key nuclear energy market players' global operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the Global nuclear energy market with five year forecasts

Reasons to Buy

What was the size of the Global nuclear energy market by value in 2022?

What will be the size of the Global nuclear energy market in 2027?

What factors are affecting the strength of competition in the Global nuclear energy market?

How has the market performed over the last five years?

What are the main segments that make up the global's nuclear energy market?
