The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Government spending refers to the money spent by the government of a country to provide goods and services to its citizens. It helps to drive economic growth, create employment opportunities, and improve the standard of living for its citizens.

The Indian government spending market recorded expenditure of \$1,029 billion in 2024, representing a compound annual growth rate (CAGR) of 7.7% between 2019 and 2024.

The education segment accounted for the market's largest proportion in 2024, with a total expenditure of \$197.9 billion, equivalent to 19.2% of the market's overall expenditure.

In 2024, the Indian government spending market experienced an annual growth of 6.2%, partly attributed to the growing demand for healthcare and social protection, particularly in underserved areas. With rising concerns around public health infrastructure, the government increased investment under the Ayushman

Bharat Health Infrastructure Mission, expanding access to diagnostic services, primary care, and emergency facilities in semi-urban and rural belts.
