### SUMMARY

Gyms, Health & Fitness Clubs in Indonesia industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

The gyms, health & fitness clubs market refers to clubs that provide exercise facilities such as weight and exercise machines, fitness classes, personal training and other services such as health and beauty facilities, food and drink, clothing and equipment, designed for users to improve and maintain their physical health. Market revenues are calculated as the membership fees paid to clubs. All market data and forecasts are represented in nominal terms (i.e. without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2020 annual average exchange rates.

The Indonesian gyms, health and fitness clubs market is expected to generate total revenues of \$0.3bn in 2021, representing a compound annual growth rate (CAGR) of 7.8% between 2017 and 2021.

The market is expected to see a small rebound in 2021 based on pent-up demand, with the re-activation of subscriptions, given that the lockdown and social distancing measures will be relaxed consequent to a mass vaccine-immunization of the population.
