### SUMMARY

Gyms, Health & Fitness Clubs in Scandinavia industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

The gyms, health & fitness clubs market refers to clubs that provide exercise facilities such as weight and exercise machines, fitness classes, personal training and other services such as health and beauty facilities, food and drink, clothing and equipment, designed for users to improve and maintain their physical health. Market revenues are calculated as the membership fees paid to clubs. All market data and forecasts are represented in nominal terms (i.e. without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2020 annual average exchange rates.

The Scandinavian gyms, health and fitness clubs market is forecast to generate total revenues of \$2.4bn in 2021, representing a compound annual rate of change (CARC) of -2% between 2017 and 2021.

Many leading players continued to expand their gym portfolios during the pandemic despite having a reduced number of active memberships.

The lockdown and social-distancing measures imposed to contain the ongoing pandemic have prevented gyms and health and fitness club operators from generating revenues from new and existing users.
