SUMMARY

Gyms, Health & Fitness Clubs in Singapore industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The gyms, health & fitness clubs market refers to clubs that provide exercise facilities such as weight and exercise machines, fitness classes, personal training and other services such as health and beauty facilities, food and drink, clothing and equipment, designed for users to improve and maintain their physical health. Market revenues are calculated as the membership fees paid to clubs. All market data and forecasts are represented in nominal terms (i.e. without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2020 annual average exchange rates.

The Singaporean gyms, health and fitness clubs market is expected to generate total revenues of \$0.2bn in 2021, representing a compound annual growth rate (CAGR) of 3.6% between 2017 and 2021.

The lockdown and social-distancing measures imposed to contain the ongoing pandemic have prevented gyms and health and fitness club operators from generating revenues from new and existing users.

The shift of the millennial generation to healthier lifestyles, which has brought the importance of physical exercise to the fore, has been the main driver of this market's expansion over the last decade.
