The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Healthcare providers market encompasses the total expenditure on healthcare in each country. It covers all the final consumption spending on healthcare goods and services. The market is segmented into inpatient care, outpatient care, long-term care, medical goods, and collective services and capital formation.

The Chinese healthcare providers market recorded revenues of \$1,312.5 million in 2024, representing a compound annual growth rate (CAGR) of 6.6% between 2019 and 2024.

The outpatient care segment accounted for the market's largest proportion in 2024, with total revenues of \$641.8 million, equivalent to 48.9% of the market's overall value.

The growth of the Chinese healthcare providers market is driven by the country's mounting aging population, with a high prevalence of chronic diseases such as hypertension, diabetes, and cardiovascular conditions.

According to the State Council of the People's Republic of China, at the end of 2023 (the latest available data), China had 297 million people aged 60 or above, constituting 21.1% of the total population.
