Healthcare Providers in Japan

Summary

Healthcare Providers in Japan industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value 2019-24, and forecast to 2029). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Healthcare providers market encompasses the total expenditure on healthcare in each country. It covers all the final consumption spending on healthcare goods and services. The market is segmented into inpatient care, outpatient care, long-term care, medical goods, and collective services and capital formation.

The Japanese healthcare providers market recorded revenues of \$709.5 million in 2024, representing a compound annual growth rate (CAGR) of 3.8% between 2019 and 2024.

The inpatient care segment accounted for the market's largest proportion in 2024, with total revenues of \$182.5 million, equivalent to 25.7% of the market's overall value.

The growth of the Japanese healthcare providers market is driven by the mounting aging population. According to the Japanese government, in September 2024, Japan's elderly population reached a record high of 36.3

million. This demographic trend is leading to higher demand for elderly care, long-term care facilities, and, therefore, healthcare services.
