### Healthcare Providers in Malaysia

#### Summary

Healthcare Providers in Malaysia industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value 2019-24, and forecast to 2029). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

#### Key Highlights

Healthcare providers market encompasses the total expenditure on healthcare in each country. It covers all the final consumption spending on healthcare goods and services. The market is segmented into inpatient care, outpatient care, long-term care, medical goods, and collective services and capital formation.

The Malaysian healthcare providers market recorded revenues of \$18.5 million in 2024, representing a compound annual growth rate (CAGR) of 5.7% between 2019 and 2024.

The inpatient care segment accounted for the market's largest proportion in 2024, with total revenues of \$5.5 million, equivalent to 29.4% of the market's overall value.

The growth of the Malaysian healthcare providers market is driven by the mounting prevalence of chronic diseases such as hypertension, diabetes, and cardiovascular conditions. According to the National Diabetes Registry Report

2023 (the latest available official data), in 2023, there were 870,771 active diabetes patients in the NDR, with 99.5% diagnosed with Type 2 diabetes (T2DM), with 16.1% aged 65-69. This is increasing the demand for long-term medical care and, therefore, healthcare services.
