### SYNOPSIS

Essential resource for top-line data and analysis covering the Scandinavia healthcare providers market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

### KEY HIGHLIGHTS

The healthcare providers sector is valued as total expenditure on healthcare in each country. This includes final consumption spending on healthcare goods and services.

The Scandinavian healthcare providers sector had total revenues of \$151.9bn in 2016, representing a compound annual growth rate (CAGR) of 3.8% between 2012 and 2016.

The outpatient care segment was the sector's most lucrative in 2016, with total revenues of \$43.1bn, equivalent to 28.4% of the sector's overall value. The Inpatient care segment contributed revenues of \$42.0bn in 2016, equating to

27.6% of the sector's aggregate value.

Reforms in Scandinavian region have enhanced patients' choice over healthcare providers, increasing private expenditure in recent years. However, there are concerns over the level of involvement of private providers in public provision in these countries, so that regulation amendments such as profit caps in Sweden or restrictions on outsourcing in Finland are likely to be passed.
