The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Healthcare providers market encompasses the total expenditure on healthcare in each country. It covers all the final consumption spending on healthcare goods and services. The market is segmented into inpatient care, outpatient care, long-term care, medical goods, and collective services and capital formation.

The South Korean healthcare providers market recorded revenues of \$268.6 million in 2024, representing a compound annual growth rate (CAGR) of 9.1% between 2019 and 2024.

The outpatient care segment accounted for the market's largest proportion in 2024, with total revenues of \$82.8 million, equivalent to 30.8% of the market's overall value.

According to GlobalData, in 2024, the South Korean healthcare providers market grew by 4.1% annually. The growth is attributed to the mounting aging population. According to the Ministry of the Interior and Safety, in December

2024, the population aged 65 and older in South Korea reached 10.2 million. This is increasing the demand for long-term medical care and, therefore, healthcare services.
