KEY HIGHLIGHTS

The hotels & motels industry consists of establishments that provide paid lodging and full guest services, typically with a continuous staff presence. In the case of motels, this includes off-street parking facilities, but not necessarily meal services. The industry is detailed in both value and volume terms.

The Malaysian hotels and motels industry had total revenues of \$2.9bn in 2020, representing a compound annual rate of change (CARC) of -24.2% between 2016 and 2020.

The number of establishments declined with a CARC of -1% between 2016 and 2020, to reach a total of 4,875.0 in 2020.

The contraction of Malaysia's hotel industry in 2017 was driven by the enormous growth of supply during previous years as supply outpaced demand, forcing

hotel operators to reduce prices in an effort to retain occupancy rates.
