The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

Foodservice is defined as the value of all food and drink, including on-trade drinks not drunk with food, for immediate consumption on the premises or in designated eating areas shared with other foodservice operators, or in the case of takeaway transactions, freshly prepared food for immediate consumption. Foodservice is restricted to the sale of food and drink in specific foodservice channels defined below and excludes vending machines.

The Indian foodservice industry had total revenues of \$137.3 billion in 2021, representing a compound annual growth rate (CAGR) of 4.9% between 2016 and 2021.

Industry consumption volume increased with a CAGR of 3.3% between 2016 and 2021, to reach a total of 109.4 billion transactions in 2021.

The growth of disposable income in India, driven by dual-income households,

had led to more consumers eating out, thus driving growth in this industry. In addition to this, the increase in urbanization and consumerism has led to more consumers eating out, with these trends being led by younger consumers.
