The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

The non-life insurance market consists of the general insurance market segmented into motor, property, liability and other insurance. The other segment is made up of non-life insurance products including health, travel, and accident cover among others. The value of the non-life insurance market is shown in terms of gross premium incomes. Gross premium income is defined as the insurer's premium income for the year from its policies, calculated without reduction for reinsurance premiums paid or payable by the insurer.

The Indian non-life insurance market had total gross written premiums of \$32.4 million in 2022, representing a compound annual growth rate (CAGR) of 8.5% between 2017 and 2022.

The Motor segment accounted for market's the largest proportion in 2022, with total gross written premiums of \$11.5 million, equivalent to 35.5% of the

market's overall value.

The performance of the market is forecast to decelerate, with an anticipated CAGR of 6.4% for the five-year period 2022 - 2027, which is expected to drive the market to a value of \$44.1million by the end of 2027. India's insurance penetration was pegged at 4.2% in 2021, with life insurance penetration at 3.2% and non-life insurance penetration at 1%. In 2021, the Union Cabinet approved an investment of \$804.71 million into entities, offering export insurance cover to facilitate additional exports worth \$75.11 billion over the next five years. Along with these various other initiatives have been taken by the government which can drive the market.
