Summary

Non-Life Insurance in Indonesia industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Non-life insurance is typically defined as any insurance not determined to be life insurance. It includes automobile and homeowners' policies and provides payments depending on the loss from a particular financial event.

The Indonesian non-life insurance market had total gross written premiums of \$5.1 billion in 2022, representing a compound annual growth rate (CAGR) of 6.7% between 2017 and 2022.

The property segment accounted for the market's largest proportion in 2022, with total gross written premiums of \$1.7 billion, equivalent to 32.9% of the market's overall value.

Indonesia is one of the most susceptible countries to climate change and is seeing increasingly erratic monsoon seasons with heavier precipitation, supporting the demand for insurance from the property segment of the market.
