Abstracts

Insurance Brokers in Canada

SUMMARY

Insurance Brokers in Canada industry profile provides top-line qualitative and quantitative summary information including: market size (value 2012-16, and forecast to 2021). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

SYNOPSIS

Essential resource for top-line data and analysis covering the Canada insurance brokers market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

KEY HIGHLIGHTS

The insurance brokers sector is valued in relation to the total brokerage revenue of non-life insurance and reinsurance brokerage firms. All currency conversions have been carried out at constant annual average 2016 exchange rates.

The Canadian insurance brokers sector had total revenues of \$2,210.3m in 2016, representing a compound annual growth rate (CAGR) of 9.5% between 2012 and 2016.

The primary insurance segment was the sector's most lucrative in 2016, with total revenues of \$2,137.3m, equivalent to 96.7% of the sector's overall value. The Reinsurance segment contributed revenues of \$73.0m in 2016, equating to

3.3% of the sector's aggregate value.

The growth of the Canadian sector in recent years was driven by surging demand for new pecuniary loss insurance contracts. On the other hand, net written premiums for motor vehicle insurance – which is a significant part of the sector - contracted in that period, decelerating the growth rates of the total sector.

SCOPE

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the insurance brokers market in Canada

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the insurance brokers market in Canada
