Insurance in Denmark - Market Summary, Competitive Analysis and Forecast to 2025

SUMMARY

Insurance in Denmark industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The insurance market consists of the non-life and life insurance sectors. The value of the market is shown in terms of gross premium incomes.

The Danish insurance market had total gross written premiums of \$38.1bn in 2020, representing a compound annual growth rate (CAGR) of 4.2% between 2016 and 2020.

The life insurance segment was the market's most lucrative in 2020, with total gross written premiums of \$27.7bn, equivalent to 72.8% of the market's overall value.

The COVID-19 pandemic has had a significant impact on many markets around the world, including insurance. A low interest rate environment has constrained insurers' profits, whilst nationwide lockdown restrictions and international border closures have dampened demand for certain types of insurance, such as motor

and travel.
