SUMMARY

Insurance in Greece industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The insurance market consists of the non-life and life insurance sectors. The value of the market is shown in terms of gross premium incomes.

The Greek insurance market had total gross written premiums of \$4.9bn in 2020, representing a compound annual growth rate (CAGR) of 1.6% between 2016 and 2020.

The non-life insurance segment was the market's most lucrative in 2020, with total gross written premiums of \$2.6bn, equivalent to 52.7% of the market's overall value.

Consumer confidence has taken a hit globally in 2020 due to the social and economic uncertainty brought about by the COVID-19 pandemic. In Greece, disposable household incomes also declined during this same period, restricting consumers' ability to invest in insurance plans and negatively affecting growth

in the market.
