The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The IT services industry is valued as the combination of the business process outsourcing (BPO) services market, the application services market and the infrastructure services market. Values include revenues generated from (a) signed deals that remain under contract and (b) new contracts signed within that particular calendar year.

The Singaporean IT services industry had total revenues of \$12.1bn in 2020, representing a compound annual growth rate (CAGR) of 10.5% between 2016 and 2020.

The infrastructure services segment was the industry's most lucrative in 2020, with total revenues of \$7.7bn, equivalent to 63.7% of the industry's overall value.

Due to a number of high-level cybersecurity threats and the interconnected

nature of network technologies, cybersecurity has become critical for many businesses.
