SUMMARY

BPO Services in Italy industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

BPO services include revenues generated both from signed deals that remain under contract and the annual revenues associated with new contracts signed within a particular calendar year. The services include the outsourcing of functions such as customer relationship management, knowledge process outsourcing, finance & accounting, human resources, procurement, and vertical-specific processes. The total value of the market represents the demand for the service coming from a particular country.

The Italian BPO services market had total revenues of \$5,272.7 million in 2021, representing a compound annual growth rate (CAGR) of 4.9% between 2016 and 2021.

The vertical-specific BPO segment was the market's most lucrative in 2021, with total revenues of \$1,502.1 million, equivalent to 28.5% of the market's overall value.

The growing trend towards flexibility in outsourcing business processes among the small and large companies is expected to drive the BPO service market across the country.
