The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The internet access sector consists of the total Internet Service Revenue charged for the provision of narrowband and broadband Internet connections through both consumer and corporate channels. All revenues calculated are retail revenues exclusive of taxes. Only fixed communication is included; mobile connections are not considered.

The Japanese internet access market had total revenues of \$15,140.0 million in 2021, representing a compound annual growth rate (CAGR) of -13% between 2016 and 2021.

Market volume increased with a CAGR of 1% between 2016 and 2021, to reach a total of 118 million internet users in 2021.

The market has returned to growth following declines in 2017 and 2018, which

came as a result of depreciated prices. Despite growth over the past three years, the market has yet to reach its 2016 value.
