### Key Highlights

The leisure attractions sector includes revenues generated by recreational attractions, such as museums, historical sites and similar institutions, and amusement parks and arcades.

The UK leisure attractions sector is forecast to generate total revenues of \$5.8bn in 2020, representing a compound annual rate of change (CARC) of -0.1% between 2016 and 2020.

The amusement parks and arcades segment is expected to be the sector's most lucrative in 2020, with total revenues of \$3.7bn, equivalent to 63.8% of the sector's overall value.

The relatively slow levels of growth prior to 2020 in the UK have meant that the dip has been less severe than in countries like the US, and less so as well than in neighboring France.
