Life Insurance & Pension in North America

Summary

Life Insurance & Pension in North America industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Life insurance & pension is the financial cover for a contingency linked with human life, like death, disability, accident, retirement etc. Human life is subject to risks of death and disability due to natural and accidental causes. When human life is lost or a person is disabled permanently or temporarily, there is loss of income to the household.

The North American life insurance & pension market recorded gross written premiums of \$805.0 billion in 2023, representing a compound annual growth rate (CAGR) of 3.6% between 2018 and 2023.

The pension/annuity segment accounted for the market's largest proportion in 2023, with total gross written premiums of \$576.3 billion, equivalent to 71.6% of the market's overall value.

The growth in the North American life insurance & pension market is driven by the increasing population of individuals aged 65 and above. This demographic shift is fuelling demand for retirement savings plans and income protection

policies as people seek financial security for their post-retirement years. According to the United States Census Bureau, the population of individuals aged 65 and above in the US stood at 60.7 million in 2023, an increase of 5.0% from the previous year.
