Summary

Metals & Mining in Argentina industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Metals & mining market includes aluminium, steel, iron ore, coal, base metals, and precious metals. Market volume represents production volume and market value is calculated by multiplying market volume with production price.

The Argentinian metals & mining industry recorded revenues of \$8,932.7 million in 2023, representing a compound annual growth rate (CAGR) of 1.6% between 2018 and 2023.

The production volumes declined with a negative CAGR of 0.9% between 2018 and 2023, to reach a total of 5,444.5 thousand tonnes in 2023.

Despite the market value increase in 2023, metal & mining production volume has declined due to economic uncertainty, inflation, and political instability.
