Mexico Generics Market Summary, Competitive Analysis and Forecast to 2027

### Summary

Generics in Mexico industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### Key Highlights

For the purposes of this profile, a generic drug is defined as a copy of an ethical (prescription) drug formerly protected by patents that have now expired. Both unbranded generics and branded generics are included in our market scope. However, off-patent drugs that continue to be offered by the original manufacturer under the original name, and which form part of the 'generic-eligible' market, are not included. The market value is evaluated at ex-factory prices.

The Mexican generics market had total revenues of \$6.0 billion in 2022, representing a compound annual growth rate (CAGR) of 1.3% between 2017 and 2022.

Market consumption volume increased with a CAGR of 0.8% between 2017 and 2022, to reach a total of 90.1 % in 2022.

Recently, the procurement system and distribution structure for the public health sector in Mexico underwent a significant number of modifications, and the peso's value continues to undermine price competition.
