Mobile Phones in South Africa

### Summary

Mobile Phones in South Africa industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### Key Highlights

The mobile phones market includes mobile phone service revenues and average minutes of usage (MOU). Market values include revenues from mobile service providers and other members of the mobile service value chain for the provision of mobile telephony services, excluding revenues from the sale of devices. Market volumes cover prepaid and postpaid, which consist of prepaid average monthly MOU and postpaid average monthly MOU. Minutes of use are made up of the average of voice minutes used in mobile subscriptions, including both incoming and outgoing calls, but not including M2M/IoT voice services.

The South African mobile phones market had total revenues of \$6.4 billion in 2023, representing a negative compound annual growth rate (CAGR) of 3.1% between 2018 and 2023.

Market consumption volumes declined with a negative CAGR of 12.5% between 2018 and 2023, to reach a total of 257.9 average MOU in 2023.

The market is saturated, especially in urban regions with significant mobile

penetration.
