Netherlands Software Market @Summary, Competitive Analysis and Forecast to 2027

SUMMARY

Software in the Netherlands industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The software market is defined as revenues generated from both: sales of, and subscriptions to, various software packages and offerings. The market includes both signed deals that remain under contract, and the annual revenues associated with new contracts signed, within a particular calendar year. This excludes sales opportunities for third-party services providers.

According to a study by the software company OfferZen, AWS is preferred by Dutch software engineers over Azure and Google Cloud Platform. Only Azure is ranked first among businesses serving businesses. Developers at businesses with more than 10,000 workers rely mostly on the cloud platform.
