### SUMMARY

Toys & Games Retail in the Netherlands industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

The toys & games market includes retail sales of action figures, activity toys, dolls, games, infant and baby toys, miniature models, plush toys, puzzles, ride-on model toys, and toy vehicles. All market data and forecasts are represented as consumer expenditure in retailers which includes sales taxes (e.g. VAT) and figures presented are in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2021 annual average exchange rates.

The Dutch toys & games retail market had total sales of \$833.7 million in 2021, representing a negative compound annual rate of change (CARC) of 1.6% between 2017 and 2021.

Online specialists account for the largest proportion of sales in the Dutch toys & games retail market in 2021. Sales through this channel generated \$359.5

million, equivalent to 43.1% of the market's overall value.

The Netherlands has seen a relatively low birth rate for several years, and as a result, the percentage of children in the population has been shrinking. This has constrained sales of toys and games to an extent.
