The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The non-life insurance market consists of the general insurance market segmented into motor, property, liability and other insurance. The other segment is made up of non-life insurance products including health, travel, and accident cover among others. The value of the non-life insurance market is shown in terms of gross premium incomes. Gross premium income is defined as the insurer's premium income for the year from its policies, calculated without reduction for reinsurance premiums paid or payable by the insurer.

The Indian non-life insurance market had total gross written premiums of \$26.8bn in 2020, representing a compound annual growth rate (CAGR) of 11% between 2016 and 2020.

The motor segment was the market's most lucrative in 2020, with total gross written premiums of \$9.6bn, equivalent to 35.9% of the market's overall value.

Digital innovation is becoming increasingly popular in the Indian insurance market and is likely to be a key driver for growth going forwards.
