Non-Life Insurance in Nigeria

Summary

Non-Life Insurance in Nigeria industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Non-life insurance is defined as any insurance not determined to be life insurance. It includes automobile and homeowners' policies and provides payments depending on the loss from a particular financial event. The market value is measured by the written premium generated by market players within a given year.

The Nigerian non-life insurance market recorded written premiums of \$1 billion in 2023, representing a compound annual growth rate (CAGR) of 3.6% between 2018 and 2023.

The property segment accounted for the market's largest proportion in 2023, with total written premiums of \$0.5 billion, equivalent to 51.3% of the market's overall value.

The market is contracted due to slow GDP growth, increased inflation rate, and declined private consumption expenditure. According to CEIC Data, private consumption expenditure dropped to \$44.758 billion in December 2023, down

from \$54.731 billion in September 2023. This decline, coupled with increased inflation, has impacted the growth of the non-life insurance market.
