North America BPO Services Market Summary, Competitive Analysis and Forecast, 2017-2026

SUMMARY

BPO Services in North America industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

BPO services include revenues generated both from signed deals that remain under contract and the annual revenues associated with new contracts signed within a particular calendar year. The services include the outsourcing of functions such as customer relationship management, knowledge process outsourcing, finance & accounting, human resources, procurement, and vertical-specific processes. The total value of the market represents the demand for the service coming from a particular country.

The North American BPO services market had total revenues of \$94,079.6 million in 2021, representing a compound annual growth rate (CAGR) of 5.5% between 2016 and 2021.

The Vertical-specific BPO segment was the market's most lucrative in 2021, with total revenues of \$26,575.7 million, equivalent to 28.2% of the market's overall

value.

The emerging trends such as big data and analytics, cloud computing technology, and others will boost the demand for outsourcing these services by small and medium sized players as setting up these services in-house costs ample amount of money and employee training, especially when the labor costs are high across the region.
