### Oil & Gas in United Arab Emirates

#### Summary

Oil & Gas in United Arab Emirates industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

#### Key Highlights

The oil and gas market volume is defined as the total consumption (barrels of oil equivalent) of refined petroleum products and natural gas by end-users in each country. The value of the oil segment reflects the total volume of refined petroleum products, including refinery consumption and losses, multiplied by the average retail price of gasoline and diesel taken together. The value of the gas segment is calculated as the total volume of natural gas consumed multiplied by the retail price of natural gas.

The Emirati oil & gas market recorded revenues of \$59.7 billion in 2023, representing a compound annual growth rate (CAGR) of 2.1% between 2018 and 2023.

Market consumption volumes declined with a negative CAGR of 0.1% between 2018 and 2023, to reach a total of 655.9 million BoE in 2023.

The United Arab Emirates (UAE) is the seventh-largest total liquid fuel producer

in the world and the third-largest in the Organization of Petroleum Exporting Countries (OPEC). On June 4, 2023, OPEC+ announced that the group would extend crude oil production quotas for participating member countries to the end of 2024. The UAE's current quota increased by 200,000 barrels per day, bringing its 2024 crude oil output quota to 3.22 million barrels.
