The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The Online Retail market includes all sales within each category listed below, provided they take place over the internet, where the payment does not occur in-store on a later occasion. Data is included irrespective of whether the vendor is a pure-play internet company or the online offering of a bricks and mortar retailer.

The Pakistani online retail sector generated total revenues of \$3,148.8m in 2018, representing a compound annual growth rate (CAGR) of 58.1% between 2014 and 2018.

The electrical and electronics retail segment was the sector's most lucrative in 2018, with total revenues of \$1.6bn, equivalent to 50.5% of the sector's overall value.

Pakistan is still predominantly a cash-based, informal economy. Transactions tend to be conducted in cash, unless very large and require a bank draft or pay order.
