Pharmaceuticals in United States

SUMMARY

Pharmaceuticals in the United States industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value 2015-19, and forecast to 2024). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The pharmaceuticals market consists of ethical drugs only and does not include consumer healthcare or animal healthcare.

The US pharmaceuticals market had total revenues of \$409,400.0m in 2019, representing a compound annual growth rate (CAGR) of 3.4% between 2015 and 2019.

On a cost basis, the American Healthcare system is the worst in the world, with numerous studies citing drug pricing in the US to be substantially higher than in any other high income country.

The US population is aging, which is driving demand for pharmaceutical products, due to an increase in age-associated disease, such as diabetes and cardiovascular diseases.
