Within the power generation industry, China is the leading country among the BRIC nations with market revenues of \$777.5 billion in 2019. This was followed by India, Russia and Brazil with a value of \$162.3, \$87.9, and \$49.8 billion, respectively.

China is expected to lead the power generation industry in the BRIC nations with a value of \$919.7 billion in 2024, followed by India, Russia, Brazil with expected values of \$215.8, \$91.0 and \$57.1 billion, respectively.

SCOPE

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the BRIC power generation Industry

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the BRIC power generation Industry

Leading company profiles reveal details of key power generation Industry players' BRIC operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the BRIC power generation Industry with five year forecasts by both value and volume

Compares data from Brazil, Russia, India, and China, alongside individual chapters on each country

REASONS TO BUY

What was the size of the BRIC power generation Industry by value in 2019?

What will be the size of the BRIC power generation Industry in 2024?

What factors are affecting the strength of competition in the BRIC power generation Industry?

How has the Industry performed over the last five years?

What are the main segments that make up the BRIC power generation Industry?
