## Abstracts

Power Generation in Israel

### SUMMARY

Power Generation in Israel industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2013-17, and forecast to 2022). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### SYNOPSIS

Essential resource for top-line data and analysis covering the Israel power generation market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

### KEY HIGHLIGHTS

The power generation industry volume is defined as the total electrical energy (TWh) generated within a country over the course of each calendar year.

The Israeli power generation industry had total revenues of \$11.3bn in 2017, representing a compound annual growth rate (CAGR) of 1.5% between 2013 and 2017.

Industry production volume increased with a CAGR of 2.7% between 2013 and 2017, to reach a total of 68.5 TWh in 2017.

Volume outgrew value due to price caps introduced by the Israeli government.

Although the industry does have some solar production as well, this generally goes to export rather than for domestic consumption.

## **SCOPE**

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the power generation market in Israel

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the power generation market in Israel

Leading company profiles reveal details of key power generation market players' global operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the Israel power generation market with five year forecasts by both value and volume

## **REASONS TO BUY**

What was the size of the Israel power generation market by value in 2017?

What will be the size of the Israel power generation market in 2022?

What factors are affecting the strength of competition in the Israel power generation market?

How has the market performed over the last five years?

What are the main segments that make up Israel's power generation market?
