Power Generation Top 5 Emerging Markets Industry Guide - Market @Summary, Competitive Analysis and Forecast to 2025

### SUMMARY

The Emerging 5 Power Generation industry profile provides top-line qualitative and quantitative summary information including: Industry size (value and volume 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the Industry.

### KEY HIGHLIGHTS

These countries contributed \$1,035.5 billion to the global power generation industry in 2020, with a compound annual growth rate (CAGR) of 7.1% between 2007 and 2011. The top 5 emerging countries are expected to reach a value of \$1,350.5 billion in 2025, with a CAGR of 5.5% over the 2020-25 period.

Within the power generation industry, China is the leading country among the top 5 emerging nations, with market revenues of \$782.5 billion in 2020. This was followed by India and Brazil with a value of \$144.1 and \$55.0 billion, respectively.

China is expected to lead the power generation industry in the top five emerging nations, with a value of \$1,006.0 billion in 2025, followed by India and Brazil with expected values of \$216.7 and \$60.4 billion, respectively.

## SCOPE

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the emerging five power generation Industry

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the emerging five power generation Industry

Leading company profiles reveal details of key power generation Industry players' emerging five operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the emerging five power generation Industry with five year forecasts by both value and volume

Compares data from Brazil, China, India, Mexico and South Africa, alongside individual chapters on each country

## REASONS TO BUY

What was the size of the emerging five power generation Industry by value in 2020?

What will be the size of the emerging five power generation Industry in 2025?

What factors are affecting the strength of competition in the emerging five power generation Industry?

How has the Industry performed over the last five years?

What are the main segments that make up the emerging five power generation Industry?
