### SYNOPSIS

Essential resource for top-line data and analysis covering the France retail ethical investment products market. Includes market size data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

### **KEY HIGHLIGHTS**

The retail ethical investment products market is defined as the market covering any form of investment in which financial return is not the sole concern of the investor, with the ethical investments being made available to the public for personal investment as opposed to institutional investors. Ethical investments are defined as investments in which the investor's financial objectives are combined with their concerns about environmental, social and governance issues.

The French retail ethical investment products market generated total assets of \$52.8bn in 2016, representing a compound annual growth rate (CAGR) of 3.4%

between 2012 and 2016.

The number of funds increased with a CAGR of 14.8% between 2012 and 2016, to reach a total of 441 funds in 2016.

In May 2016, the Sycomore Eco Solutions fund became the first ever labelled by the French government when it was awarded the TEEC label (Transition énergétique et écologique pour le climat).
