SUMMARY

Air Freight in South Africa industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The air freight sector is defined as consisting of revenues generated from freight transportation by air.

The South African air freight sector had total revenues of \$35.6 million in 2022, representing a compound annual growth rate (CAGR) of negative 32.9% between 2017 and 2022.

Sector consumption volumes declined with a CAGR of negative 37.6% between 2017 and 2022, to reach a total of 78.6 million FTK in 2022.

Ocean freight has become a popular mode for goods transportation in recent years, due to the steady decline in prices and improved services in the sector, which has impacted the demand for air freight.
