SUMMARY

Casinos & Gaming in South Africa industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The casinos and gaming market consists of all forms of betting and gaming. All values are stated in terms of gross gaming win (GGR). This is the total amount waged by customers minus the total amount paid out to customers as winnings, but before the payment of any applicable taxes, disbursements to charitable or other causes by games established for those purposes, or other expenses.

The South African casinos & gaming sector had total gross gaming win of \$1.6bn in 2021, representing a compound annual rate of change (CARC) of -3.9% between 2017 and 2021.

The sports betting and related segment was the sector's most lucrative in 2021, with total gross gaming win of \$0.7bn, equivalent to 44.2% of the sector's overall value.

The sector has experienced huge disruption from online betting. The online gambling industry continues to go from strength to strength and is now a major threat to casinos.
