### SUMMARY

Internet Access in South Africa industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

The internet access sector consists of the total Internet Service Revenue charged for the provision of narrowband and broadband Internet connections through both consumer and corporate channels. All revenues calculated are retail revenues exclusive of taxes. Only fixed communication is included; mobile connections are not considered.

The South African internet access market had total revenues of \$988.8 million in 2021, representing a compound annual growth rate (CAGR) of -5.4% between 2016 and 2021.

Market volumes declined with a CAGR of -23.8% between 2016 and 2021, to reach a total of 4.0 million internet users in 2021.

Many regional disparities exist in terms of access to the internet in South Africa. This has partly attributed to the huge fluctuations seen in this market in recent years.
