The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Non-life insurance is typically defined as any insurance not determined to be life insurance. It includes automobile and homeowners' policies and provides payments depending on the loss from a particular financial event.

The South African non-life insurance market had total gross written premiums of \$9 billion in 2022, representing a compound annual growth rate (CAGR) of 3.4% between 2017 and 2022.

The motor segment accounted for the market's largest proportion in 2022, with total gross written premiums of \$3.8 billion, equivalent to 42% of the market's overall value.

The most recent devastating weather event that South Africans have experienced is the KwaZulu Natal floods in April 2022, which resulted in over 435 fatalities and significant infrastructure damage. These natural disasters are boosting the demand for property insurance in the market.
