SUMMARY

Containers & Packaging in Spain industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The containers and packaging market is a measure of the total volumes and values of production of various types of packaging materials, divided into paper, plastic, metal and glass packaging. The segments include only products that are used explicitly for packaging purposes i.e. the paper segment does not include household and sanitary papers, or printing papers, but does include wrapping papers. It also does not include packaging that is used only for transportation purposes such as wooden crates, pallets, steel drums etc.

The Spanish containers & packaging market is expected to generate total revenues of \$29.5billion in 2022, representing a compound annual growth rate (CAGR) of -0.3% between 2017 and 2022.

Market consumption volume is forecast to increase with a CAGR of 1.6%

between 2017 and 2022, to reach a total of 11 million Tons in 2022.

Healthy economic growth during the historical period, followed by growth of consumers' disposable income and strong consumer confidence, maintained high levels of spending which boosted demand in the containers and packaging market.
