### SUMMARY

IT Services in Spain industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

The IT services industry is valued as the combination of the business process outsourcing (BPO) services market, the application services market and the infrastructure services market. Values include revenues generated from (a) signed deals that remain under contract and (b) new contracts signed within that particular calendar year.

The Spanish IT services industry had total revenues of \$16.8 billion in 2022, representing a compound annual growth rate (CAGR) of 11.3% between 2017 and 2022.

The Infrastructure Services segment accounted for the industry's largest proportion in 2022, with total revenues of \$10.5 billion, equivalent to 62.7% of the industry's overall value.

The Spanish IT services industry has expanded recently owing to several

factors, such as a growing economy, increasing GDP, increasing FDI, and a highly skilled labor population.
