Suncare in Australia

SUMMARY

Suncare in Australia industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2015-19, and forecast to 2024). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The suncare market consists of the retail sale of sun protection, after-sun and self-tan products. The sun protection segment consists of lotion, spray, gel or other topical products that absorbs or reflects some of the sun's ultraviolet (UV) radiation. The after-sun segment consists of all mass and premium moisturizing cream formulated for sunburned skin. The self-tan segment consists of all mass and premium products that either enhance natural tanning (tanning aids) or allow the skin to tan without developing exposure to the sun. The market is valued according to retail selling price (RSP) and includes any applicable taxes. All currency conversions used in the creation of this report have been calculated using constant annual average 2019 exchange rates.

The Australian suncare market had total revenues of \$181.3m in 2019, representing a compound annual growth rate (CAGR) of 7.5% between 2015 and 2019.

Market consumption volume increased with a CAGR of 5.3% between 2015 and 2019, to reach a total of 16.8 million units in 2019.

Increasing purchasing power in the country created demand for premium sun care products.
