The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

The Telecommunication Services market is defined as the total volume and value of both the Fixed Line Telecommunications market and the Wireless Telecommunications market. The market volume here is defined as the total number of fixed-line telephones and mobile subscribers.

The Greek telecommunication services market had total revenues of \$4.4bn in 2019, representing a compound annual growth rate (CAGR) of 0.6% between 2015 and 2019.

The fixed-line segment was the market's most lucrative in 2019, with total revenues of \$2.4bn, equivalent to 54.9% of the market's overall value.

Broadband penetration in Greece is developing steadily despite the difficult economic conditions. The main operators have nevertheless secured loans to enable them to build fiber-based next generation networks and so reach the European broadband targets for 2025.
